RESTAURANTHUB EMERGENCY EVACUATION PLAN UPDATE LOG.

- During the course of many buildings' existence changes happen and revamps and updates are executed.

- Emergency evacuation routes can change due to doors that have been changed or due to small changes in the flow of a building.

- This Emergency Evacuation Plan Update Log is there to be updated regularly when such changes happen to avoid that guests or staff are injured during the unfortunate event of an emergency evacuation.

- Immediately before the actual changes are effected you can change your emergency evacuation plan to be ready for the day of implementation.
