

RESTAURANTHUB PERSONAL GOAL SETTING FOR INDIVIDUAL TEAM MEMBERS.

- Sometimes it is difficult for an individual to decide how to develop his or her own career.
- Sometimes there is a blockage during introspection and the individual needs a little spark to get his dreams and developmental thoughts going.
- This sheet was developed to help team members to analyze their strengths, weaknesses, and hi-lite threats to their jobs.
- Secondly to become aware of the opportunities that have not been maximized.
- Lastly to plan training and guidance along the way for the opportunities and corrective measures for weaknesses and or threats if any.
- This document becomes an important guidance tool and should be filed on the individual team member's personnel file for future reference.
